SYNOPSIS

Unimplemented system calls.

DESCRIPTION

These system calls are not implemented in the Linux 2.6.22 kernel.

RETURN VALUE

These system calls always return `-1` and set *errno* to **ENOSYS**.

NOTES

Note that **ftime**(3), **profil**(3) and **ulimit**(3) are implemented as library functions.

Some system calls, like **alloc_hugepages**(2), **free_hugepages**(2), **ioperm**(2), **iopl**(2), and **vm86**(2) only exist on certain architectures.

Some system calls, like **ipc**(2), **create_module**(2), **init_module**(2), and **delete_module**(2) only exist when the Linux kernel was built with support for them.
