NAME

classes.conf – class configuration file for cups

DESCRIPTION

The *classes.conf* file defines the local printer classes that are available. It is normally located in the */etc/cups* directory and is generated automatically by the *cupsd(8)* program when printer classes are added or deleted.

Each line in the file can be a configuration directive, a blank line, or a comment. Comment lines start with the # character.

DIRECTIVES

<Class name> ... </Class>
> Defines a specific printer class.

<DefaultClass name> ... </Class>
> Defines a default printer class.

Accepting Yes

Accepting No
> Specifies whether the printer is accepting new jobs.
